

Prayon is committed to consistently producing Halal products which satisfy the needs of consumers wanting to respect the rules of Islamic law concerning foodstuffs.

We are achieving this by ensuring that:

- All raw materials purchased for manufacture of our Halal certified products are themselves Halal certified, or respect the Halal rules;
- Our production systems are clean and free of non-Halal substances;
- All our finished products produced in compliance with Halal requirements are certified by a recognised organisation.

Our production systems respect the rules of foodstuffs safety and good practice in the industry and are recognised by relevant certification and accreditation in this field. We can guarantee the traceability of our products at all times.

Thanks to our Integrated Management System, we put all our efforts into continuously improving our products and processes.

At Prayon, we see customer satisfaction, respect of the present Commitment, as well as all the legislation, standards, agreements and contracts with partners and clients, as both core duties and the way for us to ensure our long-term future.

The Executive Committee,
